Professional Summary

As a seasoned Junior Full Stack Web Developer with a robust three-year professional journey, I specialize in mastering FrontEnd and BackEnd technologies, with a primary focus on React and React Native.
My expertise has reached its zenith through contributing to several complex professional projects and actively engaging in ongoing initiatives. My unwavering dedication to perpetual learning and swift adaptability to novel challenges is what truly sets me apart. I am poised to elevate your projects with an avant-garde approach, driven by an unwavering and passionate commitment to excellence.

Work Experience

June 2023 - present

Nbgcreator, Belgrade
Position: Frontend Developer
 • Currently, I am working on projects within working hours for the company's needs. So far, I have completed 6 projects, including two web stores. My responsibility involves creating responsive websites based on the design from the Figma tool.
 • Technologies I worked on: JS, CSS3(Bootstrap4, Flexbox), HTML5 and small use PHP-Codeigniter4

April 2023 - June 2023

Asioso systems doo, Belgrade
Position: Frontend Developer
 • I worked on three internal web projects for the needs of the company.
 • Technologies I worked on: React JSX, Tailwind CSS, HTML5

2022/2023

ComIT International, Belgrade
Position: Junior FullStack Developer(WordPress Developer and React(ReactNative) Developer)
 • I worked on diverse projects involving cutting-edge technologies, including a Web3 initiative in React, where I designed interactive animations and diverse content-display components. I also contributed to architecting custom WordPress themes and Custom Post Types. Notably, I played a crucial role in a team dedicated to developing the RAZ mobile application for individuals with dementia. My specific responsibilities included integrating data from a PHP API into the mobile app using React Native and Redux. Additionally, I actively participated in coordinating the display of synchronized data on the corresponding web application tailored for administrators.
 • Technologies I worked on: React/ReactNative, JS, HTML5, CSS3, PHP(WordPress/CodeIgniter4)

2021

Nbgcreator, Belgrade
Position: Junior PHP-CodeIgniter practice
 • I worked on an E-commerce project and the requirements were to change several functionalities in the Admin part of the existing CMS, which include: printing messages after editing or deleting users and other data, then adding a sweet alert js module through which the form for editing users is displayed.
 • Technologies I worked on: PHP CodeIgniter3, MySQL, CSS.

2019/2020

SoftMetrix, Belgrade
Position: Junior PHP professional practice
 • I participated in the development of the web application Electronic Diary.
My tasks were to create queries for the database and to create the
Controller and Model for the web application.
 • Technologies I worked on: Yii2 PHP Framework, MySQL and HTML.

2019

Wiener Stadtische, Belgrade
Position: Life Insurance Sales Clerk
 • As a Life Insurance Sales Clerk, I support life insurance sales and
perform administrative tasks to streamline the sales process.

2019

Mellon Serbia doo
Position: Call operator
 • collection of receivables
